

## 806B plus 350A

**ASSIST AND RUN FLAT ARM**  
**26" INTERNAL WHEEL CLAMPING**  
**Tyre Changer**

Tardelli 806B is a great changer for regular shop use or for shops working on regular OEM wheels for standard automobiles and light trucks.

### Features

- ◆ 26" Internal Wheel Clamping, this powerful tyre changer handles everything from simple standard steel wheels to large delicate custom alloy wheels.
- ◆ Hi-Torque Electric Turntable works at a controlled speed for easy tyre removal and installation.
- ◆ Can be equipped with motorcycle adaptors.

## 806

**AS 23" INTERNALWHEEL CAPACITY**  
**Tyre Changer**

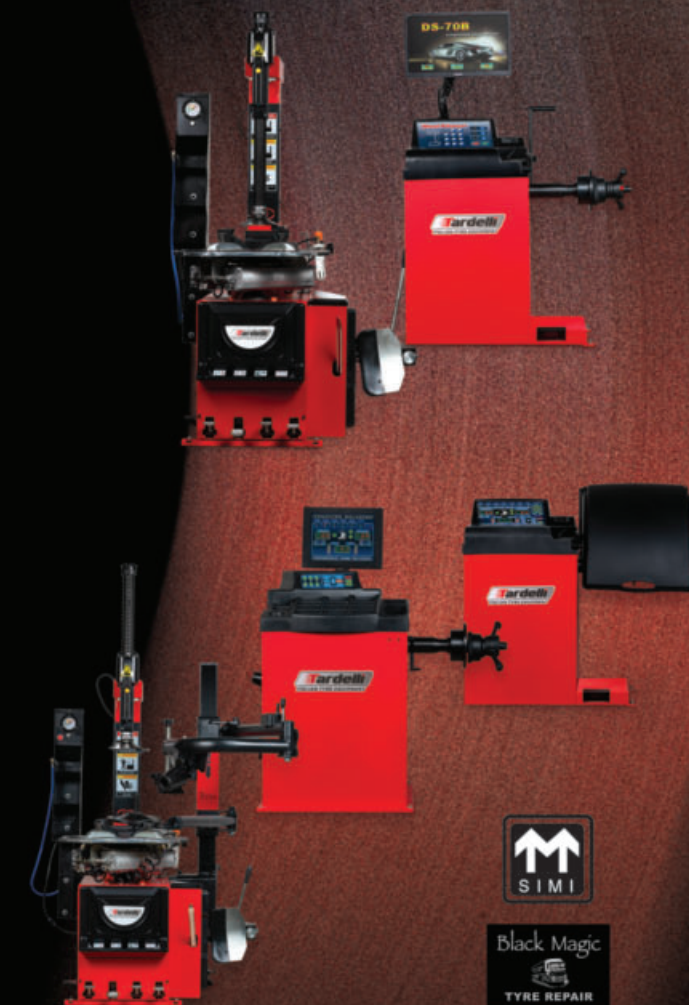

Tardelli 806 adopts a fast trouble-free way to service high performance alloy wheels. The rim clamping and bead breaking operations assure that today's alloy wheels are undamaged.

### Features

- ◆ 23" Internal Wheel Clamping, this powerful tyre changer handles everything from simple standard steel wheels to large delicate custom alloy wheels.
- ◆ Tilt-Back Arm Design. Press the front control pedal and the arm tilts back providing greater clearance for tyre removal and inflation.
- ◆ Hi-Torque Electric Turntable works at a controlled speed for easy tyre removal and installation. Precise speed gives better performance while working on low profile and runflat tyres.
